ABOUT US

Rosensky® is a premium honey brand owned by Digistar Corporation Berhad (603652-K) — a public-listed company in Malaysia. Our mission is to make pure, natural honey a part of everyday wellness and meaningful gifting.

FROM BEEHIVE STRAIGHT TO BOTTLES

Our signature Stingless Bee Honey is organically harvested at The Orchard Wellness & Health Resort in Melaka. It goes directly from the beehive to the bottle, preserving all its natural enzymes, antioxidants, and healing properties. Known as Madu Kelulut in Malay, this honey is mentioned in the Holy Qur'an (Surah An-Nahl, Verse 69) as a source of healing — making it not only a powerful health product but also one of spiritual significance.

NATURE'S RAREST PURITY YOU CAN TASTE

STINGLESS BEE HONEY

A Rare Superfood from Nature's Smallest Guardians

Sourced from the nectar of wild Mexican flowers and fruit blossoms, our Stingless Bee Honey is an extraordinary gift from nature — crafted by tiny, stingless bees native to tropical forests. With its vibrant floral origins, this honey is both a delicacy and a natural remedy.

- **Taste Profile:** Rich, tangy, and slightly sour with tropical floral and fruity notes. Each spoonful carries a complex, layered flavor with a hint of fermented depth — unlike any other honey.
- **Aroma & Texture:** Deeply aromatic with a smooth, slightly runny consistency.
- **Benefits:** Naturally packed with antioxidants, antimicrobial compounds, and low GI making it ideal for immune support, wound healing, and daily wellness.

Harvested in small batches and bottled raw to preserve its full nutritional potency. Perfect for those seeking rare, premium, and functional honey

NEW ZEALAND HONEY

Pure, Pristine & World-Renowned

Collected from the lush, unspoiled meadows and native forests of New Zealand, this honey is a true reflection of the country's clean environment and rich floral diversity. Every jar delivers purity, potency, and unmatched flavor.

- **Taste Profile:** Smooth, creamy, and delicately sweet with gentle floral undertones. Manuka varieties carry earthy, herbal notes with a slightly bitter finish — loved for both taste and therapeutic power.
- **Aroma & Texture:** Mildly floral aroma; thick, velvety texture that melts beautifully on the tongue.
- **Benefits:** Naturally rich in antibacterial properties, antioxidants, and immune -boosting compounds. Manuka honey (with UMF) is globally prized for its medicinal uses from digestion support to wound care.

Ethically harvested and traceable from hive to jar, this honey is perfect for daily enjoyment, gourmet pairings, or premium wellness gifting.

RAW HONEY = REAL BENEFITS

Not all honey is created equal. Choose raw honey for the purity, potency, and natural goodness your body deserves.
